What are our natural, innate talents and why should we focus on the things that we do best? Knowledge about our strengths can play an important role in both personal and professional life. If we can leverage our strengths on a daily basis, we can add transformational value to our organizations and the people around us.

Participants will complete the Clifton StrengthsFinder® assessment for this interactive session, led by Gallup Certified Strengths Coach Dr. LaTondra Murray. During this workshop, participants will learn:

• Why a strengths-based approach can yield positive results for you and your teams?
• What your top 5 signature themes of talent are and how they look in action?
• How to create a personal action plan to “name, claim and aim” your strengths?

This session includes the StrengthsFinder® assessment (administered in advance), individual results and worksheets. In order to get the most out of this workshop, you must complete the assessment before the workshop, so please honor your commitment to show up and participate!
