A limited number of lunches will be available for registered attendees on a first come first served basis

The second workshop in Innovation and Entrepreneurship will focus on Duke faculty members who have founded companies that were spun out of their research labs. They will cover topics around translating basic science into marketable applications, intellectual property, communication and fund raising, and entrepreneurship within an academic setting. There will be lots of opportunities for questions and discussion during the workshop.

Program agenda:	11:45 – 12:00	Boxed lunches and welcome
	12:00 – 12:55	Panel Discussion

Please bring your Duke ID to swipe for attendance.
